

## ALPHA Q180

### Trimnable Butyl Tape

UPDATED 12/23/16

**Product Overview:** ALPHA Q180 is a pliable, tacky butyl tape formulated to trim easily from molded surfaces without the use of a blade. ALPHA Q180 is a non-drying compound that will provide a water and weather-tight seal when compressed between two surfaces. The material is stable once compressed, and will not expand and contract in extreme temperatures.

**Product Uses:** ALPHA Q180 is designed specifically for use in RV and marine assembly applications. It adheres to all metals, as well as fiberglass, wood, glass, plastic, and most painted surfaces. This material is ideal for bedding applications on boats, as well as sealing applications for windows, doors, fixtures, and trim pieces on RV's.

#### Technical Information:

<b>Raw Material Base</b> .....	Rubber Based Mastic	<b>Odor</b> .....	Odorless
<b>Cone Penetration</b> .....	12.5 – 13.5 mm (77°F)	<b>Tensile Strength</b> .....	3 – 5 PSI
<b>Color</b> .....	Black	<b>Service Temp. Range</b> .....	-40° – 180°F
<b>Specific Gravity</b> .....	1.60 – 1.70	<b>Application Temp. Range</b> .....	-5° – 120°F
<b>Solids</b> .....	100%	<b>Physical State</b> .....	Solid
<b>Elongation (ASTM D412)</b> .....	>400%	<b>Manufactured State</b> .....	Extruded Rolls
<b>QUV Exposure</b> .....	Surface Discoloration Only	<b>Shelf Life</b> .....	12 Months

**Application Information:** ALPHA Q180 material is extruded onto removable release paper backing to facilitate handling. For most efficient usage, it is recommended that the material be pressed onto one surface, stripped of its paper backing, and then brought into contact with the second surface. Once compressed, excess material can be trimmed cleanly with a firm, sharpened plastic knife or scraper.

**Safety Instructions:** No special requirements are needed. Consult the product SDS for detailed safety information.
